

# Stickley

FURNITURE

Stickley is one of the most respected and admired furniture companies in the nation and has been since the 1900's. Their early pieces from before WWI are coveted by museums and collectors and bring premium bids at auctions. The new Mission look was championed in America by the Green Brothers in California, Frank Lloyd Wright in the Midwest and the Stickley Brothers in New York. Just as sophisticated and contemporary today as they were in 1900, Stickley offers a level of quality and construction that still reflects the craftsman philosophy in which they were designed.

Pick your style from three furniture designs that complement any of the Cottages at Crescent Park.

The illustrations contained in this brochure are approximations. Further information will be provided prior to the date a binding purchase agreement is signed by a purchaser. The developer retains the right to change the finishes, furniture, fixtures, layout and other features of the suites provided that such changes do not materially adversely affect the value of the suites.
